

Phase 10f Credits Tab Report

Branch: phase-10f-credits-tab

Updated the Credits section to use the supplied PL2 logo asset at `/assets/logos/pl2-logo.jpg`, top-align its square frame, and include the Breeze digital collection link.

- The Credits rail stop uses the same tactile tab behavior and appears as the final tray item in portrait.
- The PL2 logo is served from `/assets/logos/pl2-logo.jpg` and kept inside a modest square card frame.
- External credits URLs, including the Breeze digital collection, open in a new tab with `rel="noopener noreferrer"`, and URLs remain readable as text for kiosk contexts where links are blocked.
- No forms, login, saved state, dashboard layout, or external kiosk-breaking navigation were added.
