

Phase 10e Final UI Polish Report

Branch: phase-10e-final-ui-polish

This cleanup pass removes the public touch-object control panel, simplifies Follow the Strings controls, shifts and livens the attractor birds, updates the Editor prompt behavior, redacts pre-reveal form words as ????, and defaults the Class-of tray to 2000 when first opened.

- Public Reset / Start over / Presentation Mode panel is removed from the exhibit surface.
- Editor prompt appears before a choice, hides after a Dart/Pat choice, and returns on New card.
- Editor pre-reveal masking uses whole-word redaction only, so words such as party are preserved.
- Follow the Strings no longer shows Return to Memory Corridor or Send to corridor controls.
- Class-of tray opens at 2000 unless an active class window already exists.

Automated Visual Checks

State	Controls panel?	Return button?	Send UI?	Editor prompt	Class year	Class output	[form hidden] visible?
attractor birds shifted left	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
attractor bird takeoff moment	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
editor before choice	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
editor after choice prompt hidden	no	no	no	hidden	2000	Class of 2000 (1997 - 2000)	no
editor reveal original restored	no	no	no	hidden	2000	Class of 2000 (1997 - 2000)	no
editor new card reset	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
class tray default 2000	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
follow strings buttons removed	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
touch objects panel removed	no	no	no	visible	2000	Class of 2000 (1997 - 2000)	no
